

# Constant Current Led Strip

## SMD2835 CC 20Meter led strip

### Features:

1. Use high lumen Led as lighting source, Luminous Efficacy: 117LM/W, CRI80+.
2. Work on Constant current Mode, 20meter is with same brightness from the beging to the end.
3. Special design, used two constant current channels to increase stability and thermal dissipation.
4. Reduced working current at high temperature.

#### • Main Material

Double copper flexible PCB

Lighting source: 2835,60leds/M

Self-adhesive tape: 3M 9080A

#### • Waterproof Options

IP20: Non-waterproof

IP65: Drop Silicon Glue

IP67: Silicon Tube

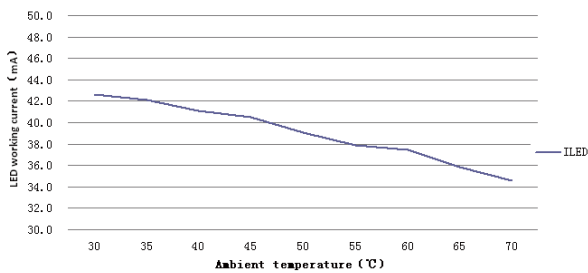

IP20

IP65

IP67

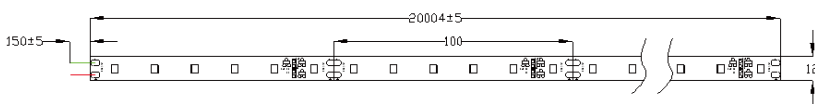

#### • Typical Electrical

Input: DC24V

Current: Max 0.35A/Meter

Power: 8.5Watt/M

Dimensioned Drawing Unit: mm

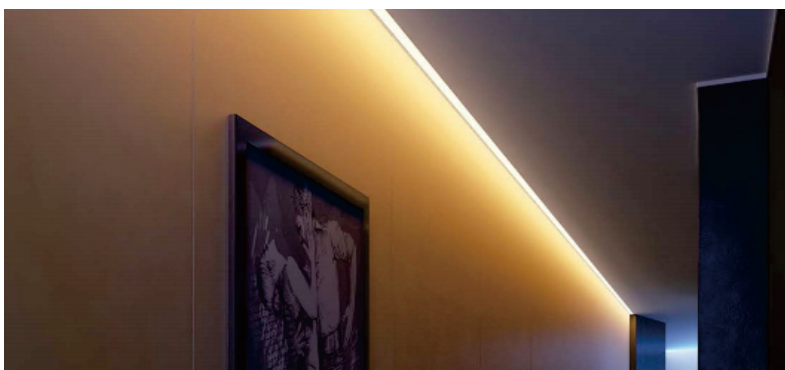

#### • Optical characteristics

Lumen: 995LM/M

Luminous Efficacy: 117LM/W

Color: 2700K,3000K,4000K,6000K

#### • Operating environment

Working Temp:-20 - 60°C

Humidity: 40 - 70% RH

#### • Application

Hotels, Conference/Meeting rooms

Commercial Purposes
